Upload License/Serial Number to Unlock Features
Get the license / serial number via email:

When you purchase a license, you should get emailed an alphanumeric serial number (license #) in the following format:
12A3BC45-XXXXXXXX-XXXXXXXX-XXXXXXXX-XXXXXXXX-XXXXXXXX-12A3BC45
Unlock a modbus client instance

1. Open Modbus Client Program
2. Select the **Help** Tab

3. Select **Registration** from the dropdown menu.

4. Enter the license/serial number.

5. You should see the **License State** status change to: **Registered**

Modbus Client - Registration Info

License State: Registered

Serial Number

7XXXXXXX −CXXXXXX F−9XXXXXX 3−FXXXXXX F−B XXXXXX5−
8XXXXXX 2−0 XXXXXX3

Close

6. At this point you should be able to use as many registers as you would like for polling purposes.
